## **Lyrtech able to raise its financing limit to meet its growing business**

**Quebec City, Canada (November 2, 2009).** Lyrtech Inc. (*Lyrtech* or the *company*) (TSX Venture Exchange: LTK), a worldwide leader in digital signal processing technologies, is proud to announce today that Finexcorp has agreed to amend its financing agreement with Lyrtech. This amendment will raise Lyrtech's limit to CA\$5 million to meet the needs of the company's rising business volume. The terms and conditions of the amended agreement between Finexcorp and Lyrtech remain the same as the ones of the CA\$2.5 million agreement announced on March 4, 2008.

"The recent contracts we were able to close, evaluated at around CA\$4.5 million, added to those already in progress, dictated the need for a higher financing limit. Finexcorp has once again come through, showing its trust in Lyrtech and proving that it is a reliable business partner," declared Louis Bélanger, president and CEO of Lyrtech.

### **About Lyrtech**

Lyrtech, a proud member of the Texas Instruments Design House Network, develops and manufactures advanced digital signal processing solutions for companies worldwide, a vital technology to network and wireless communications, audio and video processing, as well as electronic systems in all fields of technology. Lyrtech offers a full range of DSP-FPGA development platforms, as well as design, prototyping, and manufacturing of electronic products. Lyrtech works in partnership with industry leaders such as Texas Instruments, The MathWorks, and Xilinx. Lyrtech's customers include many prestigious names of the consumer electronics, telecommunications, aerospace, and defence fields. For details, visit [www.lyrtech.com](http://www.lyrtech.com).

### **About Finexcorp**

Finexcorp, a privately owned Quebec company specialised in asset-based financing and, more specifically, in financing partnerships, is the only important non-institutional, asset-based financing organization that is not a bank in Quebec. For more information about Finexcorp, visit [www.finexcorp.ca](http://www.finexcorp.ca).
